

# CUSTOM HAND TOOLS

## MPE

### External Seal Installation Tool

Installs O-Rings ranging from 0.150" (3.810mm) to 1.156"\* (29.362mm) O. D.\*\*

The MPE External Seal Installation Tool by AIS is a handheld solution designed for low-volume, external applications with seals up to 1" OD. Lightweight and ergonomic, it supports various seal types while maintaining integrity. The tool simplifies installation by eliminating manual finger placement—just load the O-ring, align it to the part, and complete the installation with two trigger pulls, making the process faster and more consistent.

### Ideal For:

O-Rings  
Cup Seals  
Back-Up Rings  
Quad Seals  
Teflon Seals  
and More!

### Ideal For:

O-Rings  
Cup Seals  
Quad Seals  
Teflon Seals  
and More!

## MPI
